

ABSTRACT

This invention relates to a new and distinct variety of strawberry named 'Driscoll Jubilee.' The variety is similar to the varieties 'Driscoll Camarillo' and 'Driscoll Coronation.' The variety is distinguished from 'Driscoll Camarillo' and 'Driscoll Coronation,' in particular, by its smaller spread of plant, conic shaped fruit of greater length than width, thinner stolons, red and white internal fruit color, the shape of the base of the terminal leaflets is acute, and the inflorescence is beneath the foliage.
